Can I get faster speeds?

Technical Support · https://quickline.co.uk/knowledge/can-i-get-faster-speeds/

You may be wondering if you can get faster speeds. Checking what speeds are available is super simple. Learn how here.

If your broadband package isn’t fast enough for the needs of your household, you can also get in touch with our sales team. We’ll talk you through the options available and help you choose the best one.

At Quickline we aim to offer everyone fast and reliable speeds. Here's a helpful guide to make sure you're making the most of our Wi-Fi. Don't forget - the best way to get the fastest possible speed on your device is to cable directly up to the router.

If you feel like something isn't right, don't worry we're here to help! Contact our support team.
