How do I set up my Quickline router?

Routers · https://quickline.co.uk/knowledge/how-do-i-set-up-my-router/

You don’t need to worry about setup—our engineers will handle everything during your installation.

If we ever send you a replacement router, it will arrive pre-configured. Simply follow the instructions in the enclosed user guide to get your service up and running quickly.

If you’ve accidentally reset your router to factory settings, you’ll need to call us so we can reconfigure it for you.

If you need help at any stage, our support team is always here.
