How much does Wi-Fi Everywhere cost?

Wi-Fi Everywhere · https://quickline.co.uk/knowledge/how-much-does-wi-fi-everywhere-cost/

Wi-Fi Everywhere costs £7.50 per month on a 24-month contract with Quickline. This Wi-Fi Everywhere pricing includes professional installation, ongoing support, and a speed guarantee.

What's Included in the Wi-Fi Everywhere Cost

Your £7.50 monthly fee includes:

- **Wi-Fi access point(s)** to cover your entire home
- **Professional installation** by one of our trained engineers
- **Ongoing support** for any Wi-Fi issues you experience
- **25Mbps minimum speed guarantee** in every room of your home
- **Remote support** for your router and mesh nodes

We'll make sure everything is set up and working properly, so you can enjoy a reliable Wi-Fi connection throughout your home.

Wi-Fi Everywhere Contract Terms

The Wi-Fi Everywhere service requires a 24-month contract. This means:

- You'll pay £7.50 per month for 24 months (£180 total)
- Early termination fees may apply if you cancel before the contract ends
- The equipment remains property of Quickline and must be returned if you cancel

Why Choose Wi-Fi Everywhere?

The cost of Wi-Fi Everywhere includes benefits you won't get with your own mesh system:

- **No upfront equipment costs** – we provide all hardware
- **Professional installation** – no technical setup required
- **Speed guarantee** – we guarantee minimum 25Mbps in every room
- **Ongoing support** – we can remotely diagnose and fix issues

- **No compatibility issues** – everything works seamlessly with your Quickline service

If you used your own mesh Wi-Fi system instead, you'd need to purchase the equipment yourself (typically £150-£400+) and handle all setup and troubleshooting on your own.

How Does Wi-Fi Everywhere Pricing Compare?

At £7.50 per month, Wi-Fi Everywhere is competitively priced compared to:

- Purchasing your own mesh system outright can cost £150-£400+ with no support
- Other ISP mesh solutions (often £12-£15 per month)
- Multiple Wi-Fi extenders that don't guarantee coverage

Is Wi-Fi Everywhere Worth the Cost?

Wi-Fi Everywhere is ideal if you:

- Have Wi-Fi dead zones in your home
- Work from home and need reliable connectivity
- Stream or game in multiple rooms
- Want hassle-free professional setup
- Value ongoing technical support
