IP Addresses

Technical Support · https://quickline.co.uk/knowledge/ip-addresses/

If you're curious about what kind of IP addresses comes with our broadband service, you're in the right place. Here's a simple guide to explain what we use and how it works.

Home broadband

With our home broadband service:

- We use a system called **CGNAT** to help manage connections efficiently.

This setup works smoothly for everyday use like browsing, streaming, gaming, and video calls.

IP address problems

If you have an IP address problem, you can call our technical support team for help.

Business broadband

With our business broadband service, IP addresses work a little diffrently:

- You get a **static IPv4 address** as standard
- This IP address stays the same, which can be helpful for things like remote access or advanced setups

Still have questions?

Just reach out to our technical support team - we'll be glad to explain things and help you get set up with what's right for you.
