Does our ‘Quickline Talk’ service display called ID?

Quickline Talk · https://quickline.co.uk/knowledge/does-our-quickline-talk-service-display-called-id/

Yes ! Our 'Quickline Talk' service displays caller ID when you receive inbound calls.

This is set-up by default so you will not need to do anything to make this work, allowing you to easily see which number is calling you.

If you want to allocate a name to a number so it displays a name rather than a number calling in, then you will need to add the number the 'Phone book' on your digital handset. For more information on this, please refer to your manufacturer's instructions for your device to set this up.
