How to use the Quickline Talk+ voicemail service

Quickline Talk · https://quickline.co.uk/knowledge/how-do-i-listen-to-my-voicemail-using-the-voice-portal-for-quickline-talk/

For our Quickline Talk+ customers, listening to your voicemail is easy. You can hear messages you missed when you were busy or away.

Please note some handsets have voicemail built in - in these instances you can keep using your existing voicemail if you want to, instead of activating the Quickline Talk+ voicemail service. Check out this article for more info on using your own voicemail.

If you don't have a voicemail service or you want to use the Quickline Talk+ service - see below:

Why check your voicemail?

You might have important calls or messages you do not want to miss, like updates from family, friends, or work.

How to access your voicemail

- Dial ***62** on your phone
- Follow the voice instructions to hear your messages

Turning your voicemail on or off

If you want your calls to go to voicemail when you do not answer:

- Dial ***41** to turn voicemail on

If you want to stop voicemail:

- Dial **#41** to turn voicemail off

Helpful Tips

- Try to check your voicemail regularly so you do not miss anything important.
- Make sure voicemail is turned on if you want to collect messages.
