What do the lights on the access point mean?

Wi-Fi Everywhere · https://quickline.co.uk/knowledge/what-do-the-lights-on-the-access-point-mean/

The lights on your access points can help understand what is going on and you may find yourself asking "What do the lights mean?".

Here is a simple breakdown: From Left to right.

In order for your service to be working we would expect that:

Power = Green

Link = Green

Wi-fi = Green (it can flash/blink green or be solid green)

WPS = Off/No Light
