Who can get Wi-Fi Everywhere?

Wi-Fi Everywhere · https://quickline.co.uk/knowledge/who-can-get-wi-fi-everywhere/

Want great Wi-Fi in every room of your home? Our Wi-Fi Everywhere service could be the answer. If you want to know if you can get our Wi-Fi everywhere service you're in the right place!

Good news – many of our customers can get Wi-Fi Everywhere

You're eligible for Wi-Fi Everywhere if you're on one of the following:

- All residential **Full Fibre** broadband customers
- Residential **Fixed Wireless Technology** customers on our **air50, air100** or **air200** packages

Our engineers will fit the service for you and make sure it’s working properly in every room of your home, so don't worry about setting it up - we've got you covered.

Not sure what package you're on?

If you're unsure which package you have, it’s easy to check:

- Look at your latest bill or welcome email
- Or contact our customer service team – we’ll check for you in just a few seconds

If you’re not on an eligible package, we can talk you through your options. You might be able to upgrade and get Wi-Fi Everywhere added to your service.

We're here to help

Still have questions? No problem – just reach out to us. We’ll help you check your package, explain how WiFi Everywhere works, and get everything set up if you’re eligible.
