Will the engineer set up my router?

Installation · https://quickline.co.uk/knowledge/will-the-engineer-set-up-my-router/

Using our Quickline router?

Our engineers will bring a new Quickline router for your installation day. This will be set-up by our engineer so you can simply plug and play.

- If you need any help getting connected to your Quickline Router let our engineer know so they can help. We'll even help get a device connected to show you how.
- Find out more about your installation day.

Using your own router?

You can choose to use your own router, for more information check out this quick guide.
