Will there be any mess or disruption during the installation?

Installation · https://quickline.co.uk/knowledge/will-there-be-any-mess-or-disruption-during-the-installation/

We make sure any disruption is minimal and the installation engineer will talk you through what they will be doing. A small hole is drilled through an external wall to bring the cable inside and our engineers will work tidily and clear away any dust they make so there is no mess left behind.
